CALIFORNIA ORGANIC FRESH AND DRIED JUJUBES

- Fresh Jujube 6X1 pint case: Available for 6-8 weeks
- Dried Jujube 12X2.5 oz pouch: Available year round

JuJu... What?

Jujube! The delicious flavor offers notes of fig and date, with a subtle sweet caramel taste.

A Superfruit? Yep! Mother Nature has expertly combined an abundance of phytonutrients, polysaccharides, 18/22 amino acids, plus vitamins and minerals known to fortify the immune system and battle inflammatory free radicals into one delicious fruit!

What is added to the fruit? Nothing. “Just” 100% California-grown sun-dried deliciousness.

Sustainable? Not only are jujube trees drought and pest-resistant, our regenerative agriculture methods revitalize the Californian soil.

Located just 40 miles from the Pacific Ocean, in Santa Barbara County near Santa Maria, California, Just Jujubes are grown on 320-acres known as Rock Front Ranch, which sits at the gateway of the Cuyama Valley, surrounded by miles of chaparral and oak forests. Famous for its rich soil, the Cuyama Valley is heated by the sun each day and cooled by the western sea breeze each evening, encouraging the maximum production of sugars for optimum flavor of the tree-ripened fruit.
