

# Organic Hayward Green Kiwi

Wild River Fruit is a 3rd generation family-owned and operated grower, packer, distributor, and marketer of specialty fruit based along the winding Yuba & Feather Rivers at the base of the Sierras in Northern California's fertile Sacramento Valley.

Best known as the longtime leader in California-grown organic kiwifruit for more than 30 years, Wild River offers the first and only CA-grown program in organic green, gold and red kiwi. Their "old vine" Hayward Green Kiwi is carefully cultivated from mature vineyards in the fertile soil along the bank of the Yuba River. The farm's unique microclimate, along with their refined growing practices translates to high quality, full-flavor fruit that measures significantly higher levels of brix and dry matter than the industry average!

- 16x1# Clam (75/p): UPC: 8-19072-01043-1
- 20x1# Bag (96/p): UPC: 8-19072-01014-1
- 19.8# Bulk VF (96/p)

Nature's vitamin capsule is loaded with antioxidants, containing 2x the vitamin c of an orange & more potassium than a banana per serving!

Wild barn owls live on Wild River Farm in special owl box-homes built by Wild River. They help keep away pesky pests and are just one of the many ways the farm works together with nature!
